

Be prepared.

Red Cross Standard First Aid/CPR 'C' RECERT or Blended Learning

Whether you require the full two-day course or just need to Recertify, we can assist you!

Two-day students: Students complete Day 1 of the course online the days leading up to the in-person course. Register for the course and we distribute the online course link to you via email.

Recert students: Students register in advance to attend in-person skills training on the course date indicated below. To qualify for a Recert, students' current certification cannot be expired.

All students now receive a CPR Pocket Mask to utilize for training and to keep after class! This is a very valuable tool to have in one's First Aid kit in case of emergency.
